

NAORA

NAORA Blue Water

Blue Water Membership

Beyond Travel. A World Of Its Own

Private Yacht

Proprietary & Confidential. All Rights Reserved.

THE CONSTRAINT

Most people experience the world from the wrong vessel.

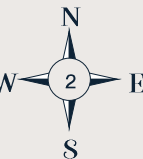

One week. One region. One charter. The itinerary is fixed before you arrive. The route ends before you are ready. The yacht belongs to someone else. None of it was designed for the way you actually want to move through the world.

You plan around availability. You compress experience into windows that don't fit. You return before you are ready because the contract says so.

You adapt to what is available.

That changes with NAORA.

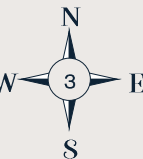

THE DIFFERENCE

When the vessel never stops moving, everything changes.

NAORA follows a five-year circumnavigation of the world. The yacht is already there already positioned, already moving through the seasons and the tradewinds that define each region at its finest.

You don't find the world. The world is already there when you arrive. Every destination chosen at the precise moment it is most extraordinary. Every passage made on your behalf, without you lifting a hand.

This is not travel. This is a different relationship with the world entirely.

WHAT NAORA IS

Not a Charter. Not Ownership. Something Entirely Different.

A charter is a transaction. It begins in one harbour and ends in another. Ownership is a responsibility — a vessel, a crew, a maintenance schedule, a permanent financial commitment to a single point on the map.

NAORA is an environment. Fully managed. Continuously moving. Built around a single outcome: your complete and uncompromising experience of the world. We don't offer a vessel. We offer a world already in motion.

We don't offer an escape.

We offer a different way of moving through the world.

BLUE WATER

One Yacht. Five Years. The Entire World.

The Blue Water membership is structured around a single, simple principle: everything that matters, decided in advance, so nothing interrupts the experience.

30 Private Days Over 2 Years

Enough time for real exploration. Fully flexible.
Use them consecutively or across multiple voyages.

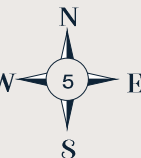

€295,000 Access

A single investment. Everything included.
No hidden costs, no operational surprises.

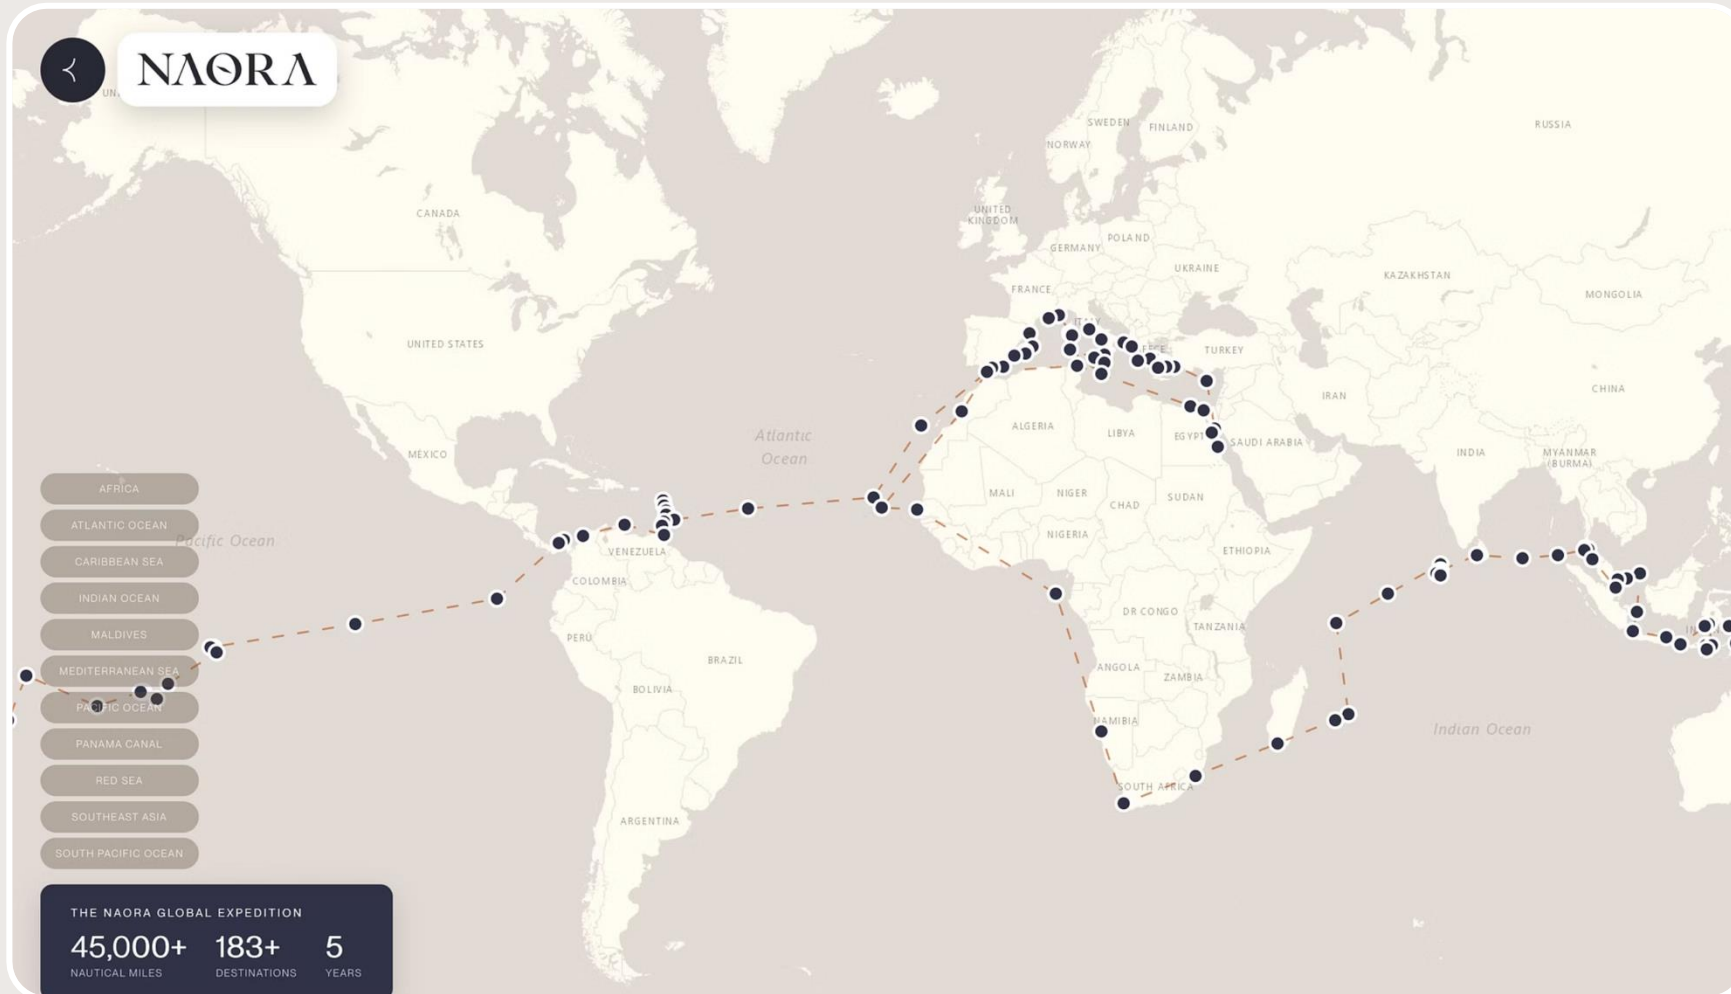

Exclusive Use

No shared spaces. No other guests. No compromises.
The vessel is yours, entirely, from arrival to departure.

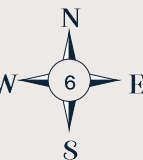

THE ROUTE

A Five-Year Continuous Global Loop

The NAORA route is not designed around tourism calendars. It follows seasons, trade winds, and 25+ years of accumulated sailing expertise optimized for experience, not efficiency.

Each leg is timed with prevailing wind systems and anchored in regions during their peak seasons ensuring conditions, culture, and natural beauty align at every stage of the journey.

YOUR DAYS

30

Days. Entirely Yours.

No fixed itinerary. No group schedule.
Structured entirely around the way you
choose to live.

Example Combinations

**Maldives****7 days**

Reefs, atolls, absolute stillness.

**Raja Ampat****10 days**

One of the last truly wild places.

**French Polynesia****14 days**

Bora Bora, Moorea, the Tuamotus.

**Mediterranean****9 days**

Croatia, Montenegro, Greece.

Or 30 consecutive days. Or any combination that fits your life and the rhythm of the season.
The structure is yours to determine. The vessel is already where you need it to be.

Flexibility is not an option.

It is the architecture *of* the membership.

BLUE WATER

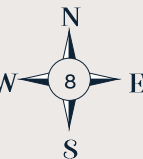

The Yacht Moves So You Don't Have To.

Most private yachts stay in one marina. One country. One season. One set of limitations built into the geography of wherever the owner chose to base the vessel.

NAORA follows the world. French Polynesia in summer. The Maldives in the dry season. The Mediterranean in spring. The Caribbean when the Atlantic softens. Every destination chosen at the right moment not because it appears in a brochure, but because we have been before and know precisely when to return.

The world does not wait.

Neither does the vessel.

THE VESSEL

Crafted for the Few.

The NAORA vessel is a Fountaine Pajot Thira 80 one of the most capable and refined expedition catamarans ever built. At 80 feet and 325m² of living space, she is designed for long-range passage-making without sacrifice.

Professional Crew

Captain · Private Chef · Dedicated Stewardess

7 Private Cabins (12 persons)

325m² of living space. Designed for long-range comfort.

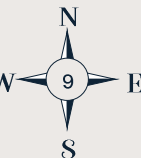

Water Sports

Diving · Kitesurfing · Snorkelling · Equipment included

Expedition Range

Remote anchorages · Long-range passage-making design

BLUE WATER

A World With No Strangers In It.

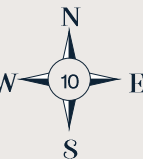

No other guests. No shared dining rooms. No coordinated schedules with people you did not invite. No compromise on who is present, what is served, or how the day unfolds.

From the moment you step aboard to the last morning at anchor — the vessel, the crew, and every experience within it belongs entirely to you and the people you chose to bring.

Only the people you choose.

Only the moments you design.

Only the world as you wish to inhabit it.

AT SEA

What Happens When the World Quiets Down.

Remove the noise of daily life and something remarkable begins to occur. The environment of open ocean is not passive — it is actively generative. It produces states of mind that the city, the office, and the calendar actively prevent.

Clarity

Distance from daily operations produces a quality of thinking that is simply unavailable inside the machine. Problems that felt intractable become transparent.

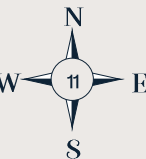

Presence

No inbox. No schedule. No competing agendas pulling attention in three directions at once. Attention becomes fully available perhaps for the first time in years.

Perspective

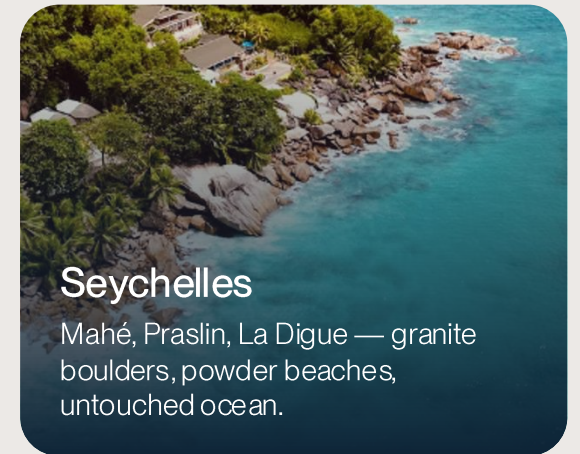

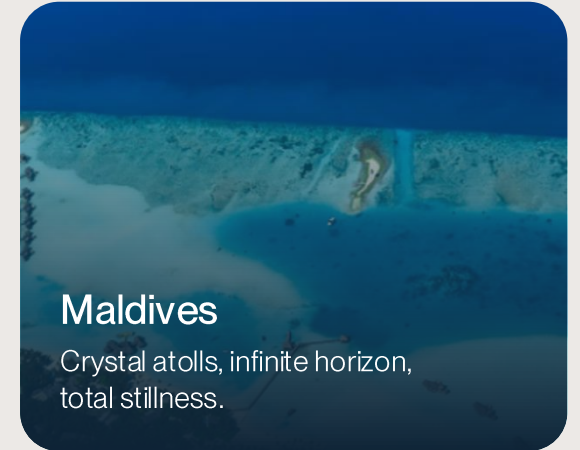

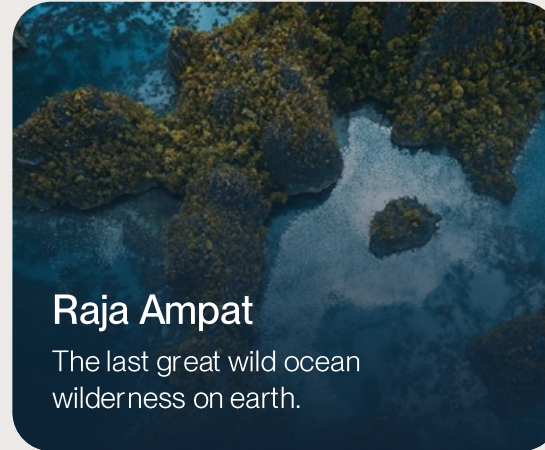

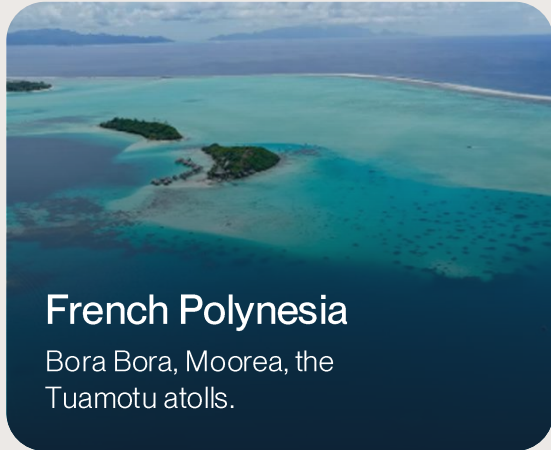

What looked urgent from the office looks different from open ocean. Priorities recalibrate naturally. The view from 400 miles offshore is clarifying in ways that cannot be manufactured.

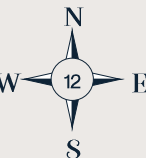

THE DIFFERENCE

NAORA

183 Destinations. Every One Chosen With Intention.

Not because they are known. Because they are worth knowing.

PRIVATE USE

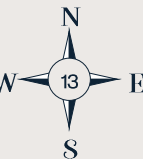

A Completely Private World.

No strangers onboard. No shared spaces. No compromises on how the day unfolds, what is served, or where the anchor drops. Only family, friends, and experiences that belong to no one else.

Some moments deserve more than a resort. More than a villa. More than any fixed address on land can provide. The memory of a week spent at anchor in a bay that most people will never find cannot be reproduced. It can only be lived.

We offer space for 12 people.

NAORA was built *for* exactly those moments.

What a Private Environment Enables.

Founder Resets

Step entirely outside the machine you built. Recover the perspective that the pace of operation gradually erodes. Return with the clarity that decisions require.

Leadership Alignment

Bring the team together in a space where rank fades, agendas dissolve, and decisions emerge from genuine conversation rather than structured process.

Investor Conversations

The right environment for the conversations that define trajectory. Removed from the city, the office, and the calendar context shifts and candor follows.

Strategic Thinking

Remove the tactical noise entirely. Return to the questions that actually matter the ones that only become visible when the operational pressure lifts.

Family Time

Create the moments that matter most. Away from screens, schedules, and the noise of daily life fully present with the people you love most.

INCLUDED

Operational Simplicity. You Focus on Presence.

Every element of the voyage is managed in advance and in full. The membership is designed so that nothing requiring your attention ever reaches you while you are aboard.

We Handle Everything

- Crew selection & briefing
- Route planning & weather routing
- Provisioning & cuisine preparation
- Port logistics & clearances
- Water sports equipment & guides
- All onboard operations, continuously

You Arrive Ready

- Nothing to organise before departure.
- Nothing to manage once aboard.
- Nothing to worry about, ever.
- Your only responsibility is to be present. Fully, completely, without distraction.

Arrive. Step aboard. The world begins.

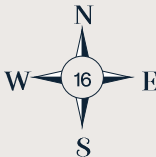

THE COMPARISON

Ownership vs. Charter vs. Blue Water.

The numbers tell a clear story. But beyond the numbers, the distinction is one of relationship — to the vessel, to the world, and to your own time.

Consideration	Ownership	Charter	Blue Water Private
Purchase price	€8M+	Not required	Not required
Annual maintenance & crew	€400K–€700K	Not applicable	Included
Operational management	Full burden	Partial (booking, logistics)	Fully managed
Depreciation	Significant	None	None
Annual investment	Variable & rising	€200K per trip	€295,000 fixed
Geographic reach	One region	One trip at a time	The entire world
Flexibility	Fixed asset	Availability-dependent	30 days over 2 years, your schedule
Arrival experience	Manage first, enjoy later	Adapt to what's available	Arrive and step in
Continuity	Same yacht, same waters	New crew, new rules each time	One vessel, five years

The vessel is the instrument. The environment is the product.

THE CIRCLE

A Circle Few Will Ever Experience.

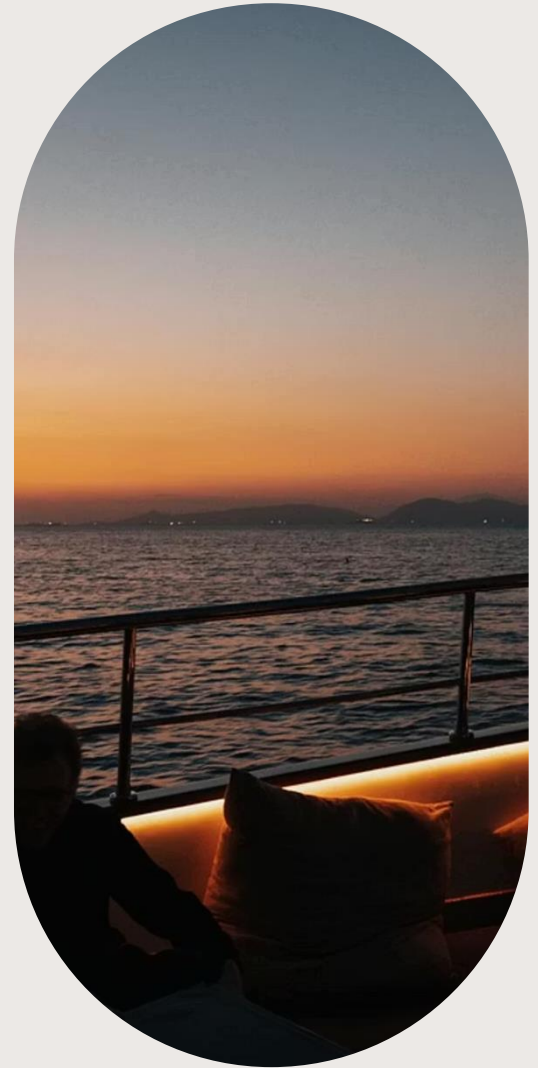

Access is not public. And it never has been. NAORA is shaped by a small and deliberate group of individuals who share a certain way of seeing the world and of moving through it.

Entrepreneurs. Founders. Creatives. Investors. People who have built, led, and created and who feel with certainty that there is more waiting beyond the horizon than anything the conventional world can offer.

Membership is finite by design. The vessel accommodates one group at a time. The circle of members is small by intention. Discretion is the condition, not the exception.

Entry begins with a conversation.

Not an application form. A conversation.

THE EXPERIENCE

You Follow Rhythm, Not Schedules.

A day at sea unfolds differently from any day on land. There is no agenda imposed from outside. There is only the rhythm of the ocean, the light, and the choice of what to do with time that is entirely your own.

01.

Morning

Wake at anchor. Stillness. The body moves on the ocean's terms not yours.
The day begins without urgency.

02.

Midday

Sail. The vessel moves. The mind opens.
Passage-making produces a quality of thought that stillness alone cannot reach.

03.

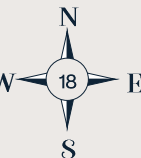

Afternoon

Explore. Dive. Rest. Deep work, if you choose it. The afternoon belongs entirely to you structureless, unscheduled, free.

04.

Evening

Connection. A meal prepared for you.
The day closes with meaning. The horizon is the last thing you see before sleep.

POSITIONING

No charter
company offers this.
No ownership
model offers this.

The NAORA Blue Water membership occupies a position that has never existed before in the private yachting world. It is not a refinement of something existing. It is structurally different built from first principles around what the experience should actually be.

Global Movement

The vessel follows seasons, tradewinds, and ocean rhythms not a fixed base or a charter calendar. Every destination arrives at precisely the right moment.

Private Access

One group at a time. Complete discretion. No shared experience with strangers. No compromise on who is present or how the voyage unfolds.

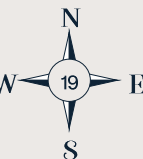

Professional Management

Everything handled. Nothing to manage. The entire operational weight of a private yacht removed entirely from your life.

NAORA combines all three.

Nothing else does.

BLUE WATER

Blue Water Access.

Structured for simplicity. Designed around your life. Available to those who are ready to begin.

€295K

Annual Access

Single investment.
Everything included.
No hidden costs. No
operational surprises.

30

Private Days Over 2 Years

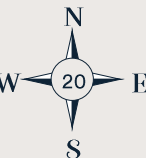

€295,000 gives you 30 private
days, spread across 2 years. Use
them consecutively or across
multiple voyages in multiple regions.

1

Exclusive Use

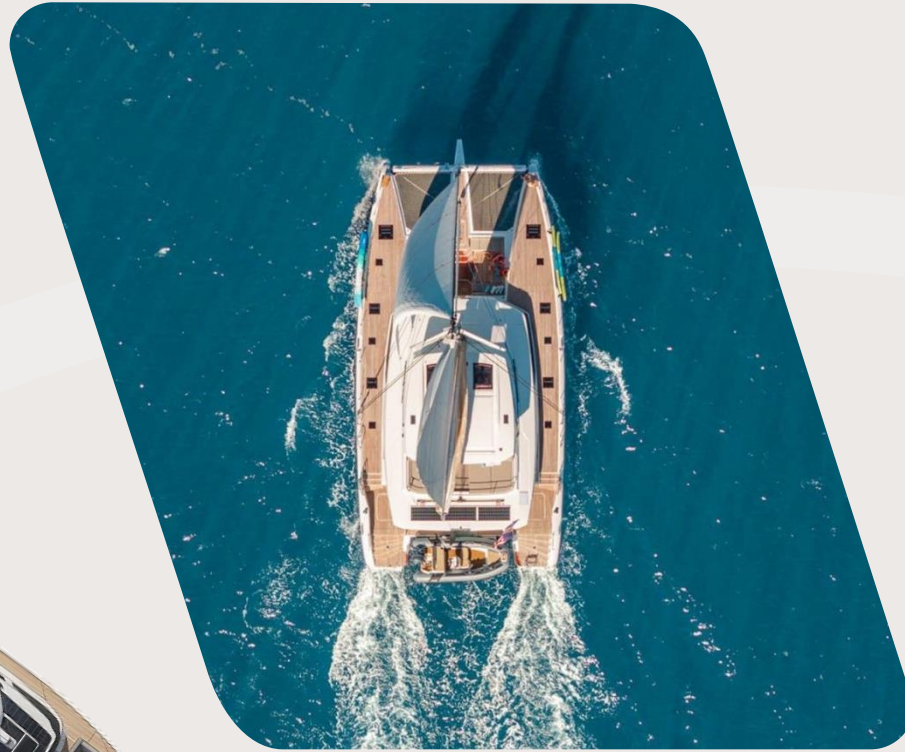

No shared spaces. No other
guests. No compromises.
Entirely yours, from arrival to
departure.

① Application required. Availability is strictly limited. Voyages begin May 2027. Entry begins with a private conversation.

NAORA

NAORA Blue Water

The world is already moving. The only
question is whether you are on board.
